PHOTON TAMERS, LLC IS OPEN FOR BUSINESS ON ETSY

We offer a variety of laser engraving, cutting, and marking services.

Examples of our work include:

Granite tiles:

Detail

Wooden Pendants:

Detail

Glass:

To make a custom product for you, all we require is a digital image file with a high resolution. This means the file should be big, and preferably directly from the camera. The image should be sharp focus and high contrast. The final engraved image quality is determined by the quality of the initial photograph.

We will be happy to discuss any projects free of charge, and will work with you to ensure the design meets or exceeds your expectations. All our granite tiles and pendants are sealed and polished.

We have just opened our Etsy shop, so make sure to check back often as we are still developing more products. Other materials that we routinely use include acrylic, laser tile, and wood.

Remember to mention REGAP, and we will donate 10% of your purchase to REGAP of CT!

If you have any questions or requests, please contact Jodi Gromek at photontamersllc@gmail.com
